

This bullying of the public airwaves by Sinclair Broadcasting is a new LOW by a powerful media sector and is threatening nothing less than the pollution of our American political process (which is already holding on tenuously -- thus the need for international observers of our upcoming Nov. 2nd proceedings).

This one-sidedness MUST be stopped. What's next? Minimally, "the other side" should receive equal time. Although I'd prefer not to see this dangerous precedent set at all.

PLEASE act in the public's interest -- we're depending on timely intervention by our government which, last time I checked, was still OF THE PEOPLE, BY THE PEOPLE, AND FOR THE PEOPLE.
